> Subject: You're part of a revolution.

>

> It's official. You're part of a revolution. Millions of people (9.1 million to
> be exact) are discovering that the Bible can and should be a part of their
> everyday life. It's no small thing that people today can have free, simple,
> whenever-wherever access to God's Word using an app for their mobile device.
> It's taken centuries of sacrificial translation efforts, immeasurable
> investments from Bible Societies and publishers, and, more recently, leaps in
> technology and innovation to make it possible. And YOU are also a huge reason
> that so many have the Bible App in their hands today. Tens of thousands of you
> are sharing verses on Twitter and Facebook, telling your friends and
> co-workers, inviting the person sitting next to you at church to download it,
> posting it on your blogs, and doing so many other creative things to help more
> people experience what you already know - it works, it's awesome, and it
> really is free. Thank you for making all of this possible!

>

> The YouVersion team is expanding rapidly, and hundreds of volunteers are
> stepping up to help make it even easier for you to engage with and share the
> Bible with millions of others. Many new features and tools are coming soon,
> but we wanted to briefly celebrate and highlight a few things that can help
> you and others:

>

> :: Record Growth in August ::

> In just one month, almost 900,000 new mobile users downloaded a YouVersion
> Bible app and engaged with Scripture. And September is shaping up to be even
> bigger!

>

> :: Create Your Own "Free Bible" Page ::

> We launched a new tool that makes it simple for anyone to give away ³free
> Bibles² just by sharing a link. We've seen great adoption of this tool by
> churches, bloggers, and other ministry organizations over the past several
> weeks. To create your own page, just visit <http://youversion.com/free-bible>.

>

> :: A New App for Android Phones ::

> The YouVersion Android app got a face-lift, some new paint, and a lot of new
> wiring recently. Some of the biggest upgrades were a new dashboard that makes
> it easy to reach different areas of the app quickly, a sleek redesign of the
> Bible reader, new reading plan features including a calendar view, and the
> ability to sync your bookmarks with your YouVersion.com account. Download the
> new Android app now by visiting <http://youversion.com/download> from your
> Android phone.

>
> Some of you non-Android phone users may be asking, ³What about me? When can I
> have some of those new features on my phone?² The answer: very soon! New
> upgrades are coming to all of our mobile phone apps in the next couple of
> months.
>
> :: Still Time to Start & Finish a Reading Plan in 2010 ::
> Finally, we want to strongly encourage you to stay connected to God's Word.
> Many of you have subscribed to a reading plan and are consistently reading The
> Bible. Others of you may have started, but got behind or distracted with the
> busyness of life. It's never too late to start or re-engage. In fact, you
> still have time to read part or all of The Bible before the end of 2010. You
> can sign up for the Bible in 90 Days, New Thru 30, or The Gospels from the
> Bible App or at <http://www.youversion.com/reading-plans/all>. What a great way
> to finish this year!
>
> The next few months hold unlimited potential and we can't wait to see how God
> works through you and YouVersion to help millions more engage with Scripture!
